

Admission FU (Biology, Chemistry, Pharmacy)

In order to enter into a doctorate degree programme at the FUB it is required that the applicant can name Professor who is willing to accept the responsibility as academic supervisor (=Betreuer) and assist with the applicant's thesis during the 3-4 year study period.

If your supervisor has not already been appointed, information on the various areas of research in the division of Biology, Chemistry and Pharmacy is available on: www.bio-chem-pha.fu-berlin.de. The chosen Professor should be contacted directly. This person must be a full professor or an adjunct professor. In case of an external supervisor, a second reviewer (also full professor or adjunct professor) from a relevant FUB area (Biology, Chemistry or Pharmacy) must be named.

Admission documentation required:

- Originals of the diploma or master + bachelor and transcript of records
- CV (signed + dated)
- Application form
- A work plan containing the aims and methods of the doctorate degree project

Please make sure that you submit the application at the beginning of the doctorate studies to the doctorate office!
